## EXPERIENCES

Freelance/Contract - Luca Iaconelli Jul 2020 - now

Developer of high-performance, responsive applications for web, mobile, and native platforms: UI/UX implementation (layout, styling, accessibility), performance engineering (optimization, caching, offline access), quality assurance (testing, CI/CD integration)

Full stack developer - Illimity Bank Jul 2019 - Aug 2020

Led the Frontend team, ensuring high-quality code delivery within deadlines, selected technologies and architectural designs aligned with company requirements, focusing on code quality and consistency. This role allowed me to stay up-to-date with frontend best practices and continually improve my development, communication, and mentorship skills

Full stack developer - IT Auction Apr 2017 - Jul 2019

Developed a data-driven, serverless corporate web application using cutting-edge technologies. This experience allowed me to refine my skills in SSR and data-driven application development, further expanding my proficiency in Frontend technologies

Full stack developer - Studio Mado Dec 2015 - Apr 2017

Developed and maintained high-end front-end applications, utilizing a range of technologies including JavaScript (ES6+), TypeScript, CSS3/Sass, and HTML5
